Longview Solutions

Longview Solutions provides corporate performance management (CPM) and tax provisioning software that leading companies such as Trustmark, Time Warner, Home Depot, Eaton, Welch’s, and Integrys use to drive performance with speed, visibility and financial integrity. Since 1994, many of the world's most respected companies have been using Longview to create a single repository of financial truth from which statutory consolidation, management reporting, financial close and XBRL reporting, financial planning, modeling, analysis, budgeting, forecasting and tax provisioning and reporting can be performed quickly and accurately, enterprise-wide. Longview is an Exact company headquartered in Toronto, Canada with additional offices in Philadelphia, Chicago (USA) and London (UK).

Position Overview

The Senior Implementation Specialist is responsible for implementing Tax Provision solution using Longview’s products in customer environments. The successful candidate will utilize the defined implementation process to meet the established implementation milestones and targeted completion dates. The successful candidate will work in a team environment with the customer to support the Longview Tax Product, and will work closely with the Longview Team Lead to successfully complete projects.

Summary of Responsibilities

- Ensures accurate and complete implementation that meets design specifications and standards
- Configures and unit tests solution components
- Has a thorough understanding of technical environment
- Provides guidance to users on Longview issues
- Works with the project manager on issue management
- Transfers Longview knowledge to the client team and the junior members of the implementation team
- Actively participates in the execution of the system test

Skills Requirement

Job Requirements:

- Bachelor's Degree in Computer Science, Information Systems or other related discipline or equivalent work experience
- 2+ years of experience in systems infrastructure and/or technical application support
- Understanding of accounting concepts, tax provisioning, consolidation and reporting process
- Solid interpersonal skills to interface with co-workers and customers
- Ability to manage specific tasks to completion with minimal direction

- Ability to collaborate with clients, identify engagement follow-up opportunities, and have a strong desire to excel
- Excellent oral and written communication skills
- Understanding of Operating Systems, networking technologies, software applications and communication protocols

Preferred but not required:

- Experience with Longview programming language
- Experience in writing complex SQL queries
- Experience in writing Visual Basic
- Experience writing and using macros in Microsoft Excel
- Experience implementing software systems
