

Longview Application Requirements (7.1 Update 1)

Client Technical Requirements

	Casual Users (Reporting data input)	Power Users (All components)	System Administrators
Browser	Internet Explorer 7,8,9	Internet Explorer 7,8,9	--
Operating System	Windows XP/Windows Vista/ Windows 7 - 32-bit & 64-bit	Windows XP/Windows Vista/ Windows 7 - 32-bit & 64-bit	Windows XP/Windows Vista/ Windows 7 - 32-bit & 64-bit
Processor	500 MHz or higher	1.6 GHz or higher	1.6 GHz or higher
Hard Disk (available)	1 GB	1 GB	2 GB
Memory	1 GB	2 GB	2 GB
.Net Framework	N/A	.Net Framework 3.5 SP1	.Net Framework 3.5 SP1

Java Run Time	Supported MS Office versions	Microsoft Silverlight	Other
For non-zero footprint clients, JRE 1.6.0_18 English or International version is required	Office 2010 - 32-bit (Windows 7)/Office 2007 (Windows XP, Windows Vista)/ Office 2003 (Windows XP Professional)	A compatible version of Microsoft Silverlight is needed to view rich applications and web clients. The minimum runtime version of Microsoft Silverlight required is 4.0.50826.0.	You must have .Net 4 or later installed to run Longview Apps (Longview Smart Client). You must use Windows XP SP3 or later to run Longview Apps.

Note: The Application client is also supported through Citrix XenApp5 and XenApp6. For Longview Tax hosted deployment: Web only users, please see requirements for "Casual users" above; Citrix client users, please see www.citrix.com/receiver

Server Technical Requirements (single server or multiple servers)

Server Component	Supported Platform	Hardware Platform/ Architecture	Operating System
▪ Data Server	-	x64	Windows Server 2008 R2
▪ Data Server Web Services	JRE version 1.6	x64	Windows Server 2008 R2
▪ Web Server	IIS v7.5	x64	Windows Server 2008 R2
▪ Database	SQL Server 2008 R2 Oracle 11g R2	x64	Any operating system supported by the database version

Note: Enterprise or Standard edition of Oracle and SQL Server RDBMS is supported. Longview integrates with SharePoint 2010. For integration with the Longview document repository, SharePoint 2010 Enterprise edition required.

Longview Server Sizing Guide

This is a high level guide and does not represent the actual configuration in every case.

Server Size Guide	Server Requirements (all tiers together)
Small <ul style="list-style-type: none"> ■ < 75 concurrent users Limited volumes of data 	4 Processor cores at 1.8GHz (or better) 4 GB RAM 40 GB disk space
Medium <ul style="list-style-type: none"> ■ < 400 concurrent users Moderate volumes of data 	4-8 Processor cores at 1.8GHz (or better) 4-8 GB RAM 60-80 GB disk space
Large <ul style="list-style-type: none"> ■ > 400 concurrent users Large volumes of data 	16+ Processor cores at 1.8GHz (or better) 8-16+ GB RAM 100+ GB disk space

	Web Server	Application Server	Database Server
Small	2 Processor cores at 1.8 GHz (or better) 2 GB RAM 20-40 GB disk space	4 Processor cores at 1.8 GHz (or better) 4 GB RAM 20-40 GB disk space	2 Processor cores at 1.8 GHz (or better) 2-4 GB RAM 20-40 GB disk space
Medium	2 Processor cores at 1.8 GHz (or better) 2 GB RAM 20-40 GB disk space	4-8 Processor cores at 1.8 GHz (or better) 4-8 GB RAM 60-80 GB disk space	4 Processor cores at 1.8 GHz (or better) 2-4 GB RAM 60-80 GB disk space
Large	4 Processor cores at 1.8 GHz (or better) 2-4 GB RAM 20-40 GB disk space	16+ Processor cores at 1.8 GHz (or better) 8-16+ GB RAM 100+ GB disk space	4+ Processor cores at 1.8 GHz (or better) 4+ GB RAM 100+ GB disk space

Addendum: Longview Integration Suite (LVIS) - Enterprise

These additional requirements are for Longview customers implementing LVIS Enterprise.

Data Integrator Server and Worker

- 64-bit processor, x86-64, 2 GHz or faster
- 4-core minimum, 8-core recommended (approximately 1.5 cores per user for a team of 5 people signed in and active at the same time)
- 10 GB free hard drive space in the installation location
- 4 GB high-speed RAM minimum, 8 GB recommended, with a minimum of 3 GB free
- Network speed 100 Mbps minimum, faster recommended
- 64-bit edition of one of the following:
 - Microsoft Windows 7 or Server 2008 R2
 - Red Hat Enterprise Linux 5 or 6
- Java Runtime Environment 1.5 or higher

Data Integrator Client

The client system from which you sign in to the Data Integrator server should meet the following requirements.

No installation is needed other than Adobe Flash to run the browser client user interface and Firefox if it is your preferred browser.

- One of the following:
 - Microsoft Windows 7, or Server 2008 R2, or XP Professional SP2
 - Red Hat Enterprise Linux 5 or 6
- 32-bit edition of one of the following:
 - Internet Explorer 8
 - Firefox 7.0.1
- Adobe Flash 10.3 or later
- Network speed 100 Mbps minimum, faster recommended
- When signing in from a client, keep the following things in mind:
 - Do integration design or production management while signed in remotely rather than locally on the server
 - For quick administrative tasks, a local browser client on the server is convenient, although all administration can be done from a browser on a remote client system
 - Use of browser toolbars, plug-ins, or other add-ons is not recommended, since they may be incompatible with Adobe Flash or interfere with client-server communication. For best results, remove all browser toolbars, plug-ins, and add-ons before signing in to Data Integrator
 - You may use either Internet Explorer or Firefox, but use only one of these browsers at a time. Different sign-ins on the same system may use different browsers
 - Clients use the license file on the server

About Longview Solutions

Longview Solutions provides corporate performance management (CPM) and tax reporting software that leading companies such as Trustmark, Time Warner, Home Depot, Eaton, Welch's, and Integrys use to drive performance with speed, visibility and financial integrity. Since 1994, many of the world's most respected companies have been using Longview to create a single repository of financial truth from which all, or any one of the following key financial processes can be performed: Financial Planning, Budgeting, Forecasting, Modeling, Disclosure Management/XBRL Reporting, Statutory Consolidation, Management Reporting, Profitability Analytics, Tax Provisioning, Uncertain Tax Positions and Tax Data Warehouse. Longview is an Exact company headquartered in Toronto, Canada with additional offices in Philadelphia, Chicago (USA) and London (UK).
