

**\$3 Billion
Manufacturing
Company**

Business/Market

**Global designer,
manufacturer and
marketer of
recreation products**

Business Issues:

- Complex structure and systems including 50+ data source systems, 250 reporting units and 25 local currencies
- Multiple and separate reporting applications that required manual data consolidation
- No unified reporting process across multiple divisions producing inconsistent numbers
- More time spent reconciling numbers than managing business
- Information disseminated via multiple emails

Longview Software and Service Solutions:

- Implemented Longview Consolidation and Tax solutions to streamline and improve global financial close process
- Design, development, and deployment advisory services

Solution / Benefits

- Flexible, configurable system accommodates multiple data sources and currencies
- Easy drilldown access to source-level data supports greater detailed reporting
- Early error detection increases data accuracy and reduces consolidation cycle time
- Greater management confidence in the numbers due to better data quality and consistency
- Automated workflow improves monthly close cycle efficiency
- Single system, single database reduces IT complexity.
